Work experience

Senior IT Developer (ITDevOps Department)   `Jack Wolfskin`

Sep 2022 – Present
Idstein, Germany

- Promoted to Senior IT Developer after demonstrating leadership and technical expertise.
- Contributed to a new project, supporting an API built in .NET Core 8.0.
- Developed the frontend using Next.js 13, React.js, and Tailwind CSS.
- Implemented Windows Azure AD Authentication and managed Azure DevOps repositories.
- Built deployment pipelines and added functions to the C# .NET Core API for frontend interaction.
- Maintained leadership in CP (PLM/PIM) development while also handling senior development tasks like feature development, bug fixes, and release management.
- Created release documentation and Zephyr Scale test cases.
- Expanded skill set into frontend development with Next.js 13, React.js, and Tailwind CSS.

Team Lead (with no official title)   `Jack Wolfskin`

Sep 2021 – Present
Idstein, Germany

During my tenure as a Team Lead, I had the privilege of overseeing and guiding a proficient team specializing in C# and .Net framework for CP the (full PLM, PIM) solution. I facilitated daily standup meetings, adeptly allocated and prioritized tasks based on business forecasts, conducted thorough code reviews, implemented rigorous quality controls, meticulously examined pull requests, managed seamless release cycles and deployments, and skillfully administered the on-premises Atlassian suite comprising Confluence, Jira, Bitbucket, and Bamboo. By ensuring the cohesive integration of these tools, I consistently delivered an exceptional user experience to our esteemed business clientele.

Atlassian Administrator

Sep 2021 – Present

Idstein, Germany

As part of my current role, I am responsible for the administration of the on-premises Atlassian stack, encompassing Jira, Bitbucket, Confluence, and Bamboo. This involves ensuring the continuous availability and optimal performance of these tools by troubleshooting, diagnosing, and performing regular maintenance tasks.

IT Developer

Jack Wolfskin

Apr 2021 – Sep 2022

Idstein, Germany

Collaborated with a team of seasoned professionals to spearhead the in-house development of PLM/PIM solutions, leveraging an array of cutting-edge technologies including C#, .NET framework, EF, API, WinServices, and WebServices. Additionally, I facilitated the efficient utilization of Bamboo, Jira, Bitbucket, and GIT for seamless project management and version control. Furthermore, I took charge of administering the on-premises Atlassian stack, encompassing Confluence, Bitbucket, Jira, and Bamboo, ensuring optimal performance and integration across the suite.

Freelance Developer

Dubai freelancing

Feb 2020 – Mar 2021

Dubai , UAE

Throughout my professional journey, I have adeptly developed projects tailored to the unique requirements of clients, including small organizations. In addition, I have provided comprehensive support for existing projects, ensuring their seamless operation and continued success. Moreover, during the challenging times of the COVID-19 era, I have proactively devised innovative solutions to address pressing issues and overcome obstacles, contributing to the overall resilience and adaptability of businesses in these unprecedented circumstances.
